Minutes

The meeting was called to order at 6:00pm by Katie. Introductions of committee members were made. Meeting minutes from the April 2015 meeting were reviewed and approved.

Agenda Item: Labs Being Relocated

Discussion: Dennis Hoebee shared that the first step was getting the lab coordinators hired. The Denton campus library lab will be moving to the second floor (outside the Pioneer Excellence Center). In Houston, the lab will be located outside the Pioneer Excellence Center on the 10th floor.

Agenda Item: Discussion of Charges

Discussion: Three separate charges were reviewed.
1. Canvas Pilot: Canvas would be a new platform / learning management system that would be reviewed for replacing Blackboard. Blackboard is very expensive. If approved, it would be a slow migration from Blackboard over to Canvas. The pilot would be in tandem with Blackboard. The proposal is a pilot of faculty, staff, and students to test and provide feedback. The research that would be needed would be inclusive of which schools use Canvas, what the results of using Canvas are, and what would need to be tested. This is most likely a spring semester event.
2. Making Students Aware of Services: We have information cards listing the lab locations and tech assistance services. There is also a Google doc listing all of TWU’s study and technology resources, but this site has not been advertised.

3. Blackboard and Google Apps Training: We could develop training programs where students could obtain a certificate of completion; TWU CARE in October is hosting Google Apps eLounges – the videos will be recorded. Heather and Corin (of Technology) are also hosting two on-campus Google Apps training: one in Housing and one for the general student population. Another resource for training is Lynda.com (note: recently purchased by LinkedIn); technology is working to get Single Sign On (SSO) access with the Lynda.com administrators.
