JOB DESCRIPTION

TITLE
Manager, Parking, Communications, and Public Safety Technology

JOB SUMMARY
Maintains administrative oversight of the police dispatch and parking operations and is responsible for the management and planning of all daily operations; supervision of all telecommunications and parking personnel; as well as all computer systems and equipment within the department. This position involves establishing policies and methods for effective, efficient emergency communication; developing standard operating procedures and user's manuals for department equipment. This position will implement and maintain systems, perform cost benefits analysis, and support system users' needs and priorities. This position is responsible for complex project based work efforts and has billing and budgeting responsibilities. In the context of Parking, Dispatch, and Public Safety Systems this individual may serve in a liaison capacity with other segments of the University. The position resolves issues of scope, resource availability, resource expertise, budget constraints and deadlines. Work is performed under administrative supervision and performance is based upon completion of assignments and results obtained. The performance evaluation is conducted through the performance evaluation system and in accordance with University Policies & Procedures.
