JOB DESCRIPTION

TITLE

Technical Support Analyst III - HOU

JOB SUMMARY

Provides high-level of technical support to the entire University for information technology systems and services, via phone, remote computer access and in person. The Technical Support Analyst III provides technical mentorship to the Technical Support Analyst I and Technical Support Analyst II positions and is a resource for service request escalations. The Technical Support Analyst III will also assist the Manager of Technology in providing quotes, making standards recommendations, and providing system documentation. The Technical Support Analyst III actively works to analyze problems related to hardware and software; recommends hardware and software purchases based on analysis of needs; direct users to appropriate information technology services teams for support, development and training; and communicates to their supervisor, end user issues and concerns. Work is performed under the supervision of manager/director and performance is based upon completion of assignments and results obtained. The performance evaluation is conducted through the performance evaluation system and in accordance with the University Policies & Procedures.

ORGANIZATIONAL RELATIONSHIPS

Reports to: Manager, Technology & Houston Center Operations

Supervises: May supervise students and temporary staff

ESSENTIAL DUTIES - May include, but not limited to the following:

- Assists in capacity planning of computers.
- Coordinates activities of planning and installing computers and printers.
- Assists in creating standardized desktop images.

• Bus and bus configuration
• Central Processing Unit (CPU)
• DVD, CD-ROM, hard and floppy disk drives
• Monitor and graphics memory
• Motherboard
• Mouse and keyboard  
• Operating systems (e.g., Mac and Windows)  
• RAM/ROM  
• Account management  
• Configuration modification, backup, restore and location (e.g. registry, INI files)  
• Directory, file structures and systems  
• Input and output  
• Installation of applications  
• Operating system administration (e.g., monitoring, process control, threads, upgrades and patching)  
• OS compatibility and interoperability  
• Procedures for starting and stopping services  
• Read and write permissions  

Highly Preferred:  
• Distributed databases and processing  
• Object oriented concepts for databases  
• On-line transaction processing  
• Relational databases  
• Web application development tools  
• Client access control procedures  
• Network Addressable Storage (NAS), Storage Area Network (SAN)  
• Remote access protocols (e.g., Remote Access Service - RAS, Point to Point Protocols - PPP)  
• Remote and distributed processing and storage (e.g., Microsoft.NET)  
• Server operating systems (e.g., Unix, Linux, Windows)  
• Services (e.g., DNS, DHCP, NAT, VPN)  

Abilities:  
• Ability to organize work effectively, conceptualize and prioritize objectives and exercise independent judgment based on an understanding of organizational policies and activities.  
• Ability to lead small teams.  
• Ability to manage projects as assigned.  
• Ability to establish and maintain effective work relationships with students, faculty, staff, and the public.  
• Ability to communicate effectively orally, by phone, in person, and in writing.  
• Ability to represent the department and University in a friendly, courteous, and professional manner.

• Analytical and problem-solving abilities.
• Ability to effectively prioritize and execute tasks in a high-pressure environment.
• Ability to work in a team-oriented, collaborative environment.
• Strong customer-service orientation.
• Ability to use a personal computer and other office equipment, including related university software and email.

PHYSICAL DEMANDS

The physical demands described in the Essential Duties are representative of those that must be met by an employee to successfully perform the essential duties of the job. Reasonable accommodations may be made to enable individuals with disabilities to perform the essential duties.

The employee may be required to travel. Required to work a flexible schedule, including nights, weekends and holidays.

WORK ENVIRONMENT

All employees are responsible for maintaining an environment that is free from discrimination, intimidation, harassment, including sexual harassment. Work is normally performed in a typical interior work environment. Daily exposure to PCs and networks.

SAFETY

TWU promotes a safe working environment. Employees are responsible for completing assigned tasks safely and efficiently, and supervisors are responsible for creating and maintaining a safe work environment. Employees must report any unsafe work conditions or practices, as well as any near-miss incidents, to their supervisor and Risk Management. Supervisors and employees should ensure that injury/accident reports are submitted to the Office of Human Resources and Risk Management within 24 hours of the incident.

The job description does not constitute an employment agreement between the employer and employee and is subject to change by the employer as the needs of the employer and requirements of the job change.
