JOB DESCRIPTION

TITLE

Technical Support Analyst II

JOB SUMMARY

Provides high-level of technical support to the entire University for information technology systems and services, via phone, remote computer access and in person. The Technical Support Analyst II actively works to analyze problems related to hardware and software; recommends hardware and software purchases based on analysis of needs; direct users to appropriate information technology services teams for support, development and training; and communicates to their Manager/Supervisor, end user issues and concerns. Work is performed under the supervision of the Manager/Supervisor and performance is based upon completion of assignments and results obtained. The performance evaluation is conducted through the performance evaluation system and in accordance with the University Policies & Procedures.

ORGANIZATIONAL RELATIONSHIPS

Reports to: Manager of Technology or other Supervisor

Supervises: No supervisory responsibilities

ESSENTIAL DUTIES - May include, but not limited to the following:

- Maintains responsible use of hardware, software, network, peripheral equipment, tools and test equipment.
- Performs onsite analysis, diagnosis, and resolution of complex desktop problems for end users, and recommend and implement corrective solutions, including offsite repair for remote users as needed.
- Installs, configures, tests, maintains, monitors, and troubleshoots end-user workstations and related hardware and software in order to deliver required desktop service levels.
- Assesses the need for and implement performance upgrades to PC boxes, including the installation of CPUs, I/O and NIC cards, hard disks, ribbon cables, hard drives, RAM, memory chips, CD-ROMs, and so on.
- Collaborates with LAN technicians/network administrators to ensure efficient operation of the company’s desktop computing environment.
• Where required, administers and resolves issues with associated end-user workstation networking software products.
• Receives and responds to incoming calls, pages, and/or e-mails regarding desktop problems.
• Ensures that physical desktop connections (i.e. RJ-45 Ethernet jacks, RJ-11 telephone modem jacks, connectors between PCs and servers, etc.) are in proper working order.
• Prepares tests and applications for monitoring desktop performance, then provide performance statistics and reports.
• Assists in preparing, maintaining, and upholding procedures for logging, reporting, and statistically monitoring desktop operations.
• Provides informal hands-on training to users on the use of computers.
• Develops and maintains current technical documentation and on-line help files.
• Provides a high-level of expertise and technical support to the entire University on information technology systems and services.
• Provides training to faculty, staff and/or students in a formal classroom environment.
• Installs services and supports desktop systems.
• Installs and services TWU supported hardware and/or digital devices associated with specific University initiatives.
• Assists users with technical training in Applications and Desktop hardware.
• Supports standardized software installation, including training and troubleshooting.
• Assists other teams within the Office of Technology.
• Adheres to procedures and policies to ensure the security and integrity of systems/networks.
• Assists in the implementation of institutionally appropriate and effective disaster recovery plans.
• Required to work a flexible schedule, including nights, weekends and holidays.

ADDITIONAL DUTIES

• Performs other duties as requested.

EDUCATION

High school diploma or equivalent required. Technology and network systems certifications preferred. Some college preferred.

EXPERIENCE

Two years job related work in computing and/or communications, education environment highly preferred.

PHYSICAL DEMANDS

The physical demands described in the Essential Duties and below are representative of those that must be met by an employee to successfully perform the essential duties of the job. Reasonable accommodations may be made to enable individuals with disabilities to perform the essential duties.

The employee may be required to travel. Required to work a flexible schedule, including nights, weekends and holidays.

WORK ENVIRONMENT

All employees are responsible for maintaining an environment that is free from discrimination, intimidation, harassment, including sexual harassment. Work is normally performed in a typical interior work environment. Daily exposure to PCs and networks.
SAFETY

TWU promotes a safe working environment. Employees are responsible for completing assigned tasks safely and efficiently, and supervisors are responsible for creating and maintaining a safe work environment. Employees must report any unsafe work conditions or practices, as well as any near-miss incidents, to their supervisor and Risk Management. Supervisors and employees should ensure that injury/accident reports are submitted to the Office of Human Resources and Risk Management within 24 hours of the incident.

The job description does not constitute an employment agreement between the employer and employee and is subject to change by the employer as the needs of the employer and requirements of the job change.
