

STUDENTS ADVISORY COMMITTEE FOR TECHNOLOGY (STUDENTSACT)

MINUTES

November 2017

I. Call to order

Natalie Malin, Lauren Sims, Heather Davis

II. Introduction of New Members

n/a

III. Debrief on Course Evaluation Tables

Lauren felt there was a rush at the beginning and then it died off. Most students hadn't completed evaluations but were interested in the prizes. SWAG was given in Dallas for completion.

Heather mentioned a student email requesting that the prize process be changed so that only students who completed on a given day were entered into the prize drawing. The committee members voted against the suggestion.

However, the members would like to see more prizes segmented by location. Heather mentioned this should be proportional by population size (Denton, Dallas, Houston, Online) and that it would add more work on her part while also decreasing the value of the prizes (as the budget is fixed). The committee members wish to pursue this option for spring.

Heather shared course evaluation completion rates as of that day. Overall, up compared with spring 2017! Heather will share the final stats in the new year.

IV. Schedule spring Committee Meetings

Natalie requested the 6 pm time but her schedule isn't yet final. Heather will send out a poll for good dates/times in early January.

V. Adjournment
