JOB DESCRIPTION

TITLE

Collaboration Solutions Technician

JOB SUMMARY

The Collaboration Solutions Technician position will help drive the adoption of university collaboration tools. The technician will evaluate and support the use of new tools as they are introduced to the university, specifically those added to Office 365, Google Application, and existing enterprise conferencing systems. This role will be responsible for the support and implementation of campus collaboration solution on their interoperability on a variety of operating systems. This position will be working with different teams within the Office of Technology and with university process owners. Some work will involve implementing existing tools to improve business processes, and look for new solutions to solve business needs. The technician will be expected to work closely with university stakeholders and become a trusted advisor in technology, solutions development, and process improvement execution. The technician will work collaboratively & cross-functionally to support successful execution of approved projects. The position will also be working closely with project management to regularly update progress and status. The performance evaluation is conducted through the performance evaluation system and in accordance with the University Policies & Procedures.

ORGANIZATIONAL RELATIONSHIPS

- Microsoft and Cisco certifications preferred.
- Certified Technology Specialist certification preferred.
- ITIL certification preferred.
- HDI certification preferred.

PHYSICAL DEMANDS

The physical demands described in the Essential Duties and below are representative of those that must be met by an employee to successfully perform the essential duties of this job. Reasonable accommodations may be made to enable individuals with disabilities to perform the essential duties.

The employee may be required to travel. The employee must have the ability to occasionally lift and/or move up to 50 pounds.

WORK ENVIRONMENT

All employees are responsible for maintaining an environment that is free from discrimination, intimidation, harassment, including sexual harassment. Work is normally performed in a typical interior work environment.

SAFETY

TWU promotes a safe working environment. Employees are responsible for completing assigned tasks safely and efficiently, and supervisors are responsible for creating and maintaining a safe work environment. Employees must report any unsafe work conditions or practices, as well as any near-miss incidents, to their supervisor and Risk Management. Supervisors and employees should ensure that injury/accident reports are submitted to the Office of Human Resources and Risk Management within 24 hours of the incident.

The job description does not constitute an employment agreement between the employer and employee and is subject to change by the employer as the needs of the employer and requirements of the job change.
